## Wednesday PM

Pastor Joseph taught a session entitled "Entering into the Lord's Rest." He used Hebrews 4:8-10 as his text. Many biblical doctrines have their basis in the foundational account of Creation and the beginning of mankind in the Garden of Eden. The Sabbath (rest) is one of many doctrines based on the Creation. In six days God created the heaven, the earth, the seas, and all that is in them (including all the dinosaurs and mankind), and on the seventh day He rested from all His labor. The Lord desires for mankind to enter into His rest with Him Sin and doubt block us from His rest. We must labor to enter in, by faith. The Bible shows that in the final restoration, things will be similar to how they were in the beginning. So, the best way to understand the future is to study the past; carefully study the biblical Creation account. According to the Book of Genesis, the earth was once surrounded by a water vapor canopy. Science tells us this would have resulted in a greenhouse effect, leading to higher temperatures, increased atmospheric pressure and much higher percentages of oxvgen. Pre-Flood creatures lived longer and grew to giant sizes. Pre-Flood reptiles grew to become the dinosaurs. Much more was taught. Get a DVD!

TEACHER: Glen, how do you spell 'crocodile?'

GLEN: K-R-O-K-O-D-I-A-L TEACHER: I'm sorry, that's incorrect....

GLEN: Maybe it is wrong, but you asked me how I spell it.

A Sunday school teacher was asking her students some questions after a series of lessons on God's omnipotence. She asked, "Is there anything God can't do?" All was silent. Finally, one boy held up his hand. The teacher, on seeing this, was disappointed that they had missed the point of the lesson. She sighed and asked, "Well, what is it you think God can't do?" The boy replied, "He can't please everybody."
